

In recent weeks questions have arisen about our facial hair policy. We feel whether you are working residential, commercial or industrial that our policy should be enforced consistently with no favoritism toward any one certain group. We understand that the likelihood of wearing a respirator on a residential or commercial job is unlikely, but if the need does arise, we will be prepared to take the necessary steps to be fitted for a respirator. We apologize if this causes any inconvenience but this is our policy and we shall abide by it. If you have any questions on the attached drawings, please feel free to contact James Johnston (281) 796-6213.

Figure 2. Classification of mustaches, beards and sideburns.
*MUSTACHES MUST NOT EXTEND BEYOND LIP LINE.
